Richard Lee
Junior Web Developer

reeechad@gmail.com

951-202-4093

Riverside, United States of America

A novice Front End developer aspiring to become a Full-Stack developer through constant learning and advice from joining an amazing team. My passions include building new sites/extensions and constantly learning new things whether they are specific to programming or not.

WORK EXPERIENCE

Ambassador
Amazon Fulfillment Center

06/2016 – 01/2018   *San Bernadino, CA*

Achievements/Tasks
- Trained the new hires on each role that they were assigned for the warehouse. (Forklift, Inventory Control, Quality Assurance, Order Picker)
- Meet tight deadlines for when to finish training a new hire.

Server
Sushi Asahi

03/2014 – 04/2016   *Corona, CA*

An All You Can Eat Sushi Restaurant

Achievements/Tasks
- Worked in a fast pace environment while still satisfying customers.
- Managed the restaurant and co-workers while the owners were not present.

EDUCATION

Aviation Science
Mt. San Antonio College

09/2012 – 06/2014   *Walnut, CA*

High School Diploma
John W. North High School

09/2006 – 06/2009   *Riverside, CA*

SKILLS

HTML5   CSS3   Javascript   jQuery   Bootstrap

PERSONAL PROJECTS

Personal Blog (07/2018 – 07/2018)
- The project was assigned from "The Web Developer Bootcamp" by Colt Steele.
- The project was made to have a better understanding of how HTML worked.

Landing Page (07/2018 – 07/2018)
- The project was made to understand how CSS worked with HTML.

Guess the Color! (08/2018 – 08/2018)
- Created a game that would output random RGB values and the player would guess what color it produced.
- HTML, CSS, & Javascript were used to create this game.

To - Do List (08/2018 – 08/2018)
- To have a better understanding of jQuery, I created a To - Do List website which also involved HTML and CSS.

ACHIEVEMENTS

Prep Program for Hack Reactor (01/2018 – 03/2018)
Intensive course on basic understandings of HTML, CSS, and Javascript.

Free Code Camp: Front End Development Program (04/2018 – Present)
A free program that covers an estimated 500 hours of course work that includes HTML5, CSS, Javascript and jQuery.

The Web Developer Bootcamp by Colt Steele (06/2018 – Present)
An online course on Udemy that covers HTML, CSS, and Javascript.
